Contents

Volume 38 Issue 1 January 2004

1 In this issue

Editorials

2 Ringing the changes: some resolutions for the new year and beyond *J Bligh*

4 Developing effective, efficient and practical methods of assessing the professional skills of physicians in practice *M Albanese*

Commentaries

6 Why are medical journals so badly written? *T Albert*

8 Cheating *D Mark Chaput de Saintonge & Alexander Pavlovic*

10 Board certification and physician quality *S D Horowitz, S H Miller & P V Miles*

12 A model for GME: shifting from process to outcomes. A progress report from the Accreditation Council for Graduate Medical Education *D C Leach*

14 Clinical fire drills and skill decay: can we develop an evidence base for policy and a language for training? *J D M Douglas & C Laird*

Diagnosis

17 Limiting the playing field: does restricting the number of possible diagnoses reduce errors due to diagnosis-specific feature identification? *V R LeBlanc, K Dore, G R Norman & L R Brooks*

25 Degree of concurrency among experts in data collection and diagnostic hypothesis generation during clinical encounters *M R Nendaz, A M Gut, A Perrier, O Reuille, M Louis-Simonet, A F Junod & N V Vu*

Simulation

32 Simulation in undergraduate medical education: bridging the gap between theory and practice *J M Weller*

39 Assessing simulated patients in an educational setting: the MaSP *L A Wind, J van Dalen, A M M Muijtjens & J-J Rethans*

Crisis resource management

45 Crisis resource management training for an anaesthesia faculty: a new approach to continuing education *R H Blum, D B Raemer, J S Carroll, N Sunder, D M Feinstein & J B Cooper*

56 Making patient safety the focus: Crisis Resource Management in the undergraduate curriculum *B Flanagan, D Nestel & M Joseph*

Original papers

67 Exit learning outcomes for the PRHO year: an evidence base for informed decisions *L A Paterson Davenport, E A Hesketh, S G Macpherson & R M Harden*

81 Teaching research methodology in medical schools: students' attitudes towards and knowledge about science *D Hren, I K Lukić, A Marušić, I Vodopivec, A Vujaklija, M Hrabak & M Marušić*

87 Portfolio use in general practice vocational training: a survey of GP registrars *D J Pearson & P Heywood*

Journal policy

96 How international is Medical Education? *L J Brice & J G Bligh*

103 *Medical Education* guidelines for reviewers 2004

105 *Medical Education* guidlines for authors 2004

109 *Medical Education* editorial policy

Letters to the editor

112 Guessing in selected-response tests *R F Burton*

113 On guessing corrections *S M Downing*

Volume 38 Issue 2 February 2004

115 In this issue

Editorial

116 Communication education and assessment: taking account of diversity *J A Spencer & J Silverman*

Commentaries

119 There are smiles, and then there are smiles *R Illingworth*

120 Medical licensure examination for the visually impaired in Japan *N Aikawa, S Kimura & Y Namba*

121 Health Science in South Africa *A Kent & T Gibbs*

122 'They said it was not a serious career!': an interview with Brian Hodges *L Pritchard*

Assessment

125 Undergraduate medical students' views about a reflective portfolio assessment of their communication skills learning *C Rees & C Sheard*

129 Gender as a variable in the assessment of final year degree-level communication skills *C M D Wiskin, T F Allan & J R Skelton*

138 The reliability of assessment criteria for undergraduate medical students' communication skills portfolios: the Nottingham experience *C E Rees & C E Sheard*

Teaching

145 Use of an innovative video feedback technique to enhance communication skills training *D L Roter, S Larson, H Shinitzky, R Chernoff, J R Serwint, G Adamo & L Wissow*

158 Acquisition of communication skills in postgraduate training for general practice
A W M Kramer, H Düsman, L H C Tan, J J M Jansen, R P T M Grol & C P M van der Vleuten
Attitudes
168 Expert and trainee determinations of rhetorical relevance in referral and consultation letters
L Lingard, B Hodges, H MacRae & R Freeman
177 Personality differences between doctors and their patients: implications for the teaching of communication skills *G B Clack, J Allen, D Cooper & J O Head*
187 Effect of medical students' ethnicity on their attitudes towards consultation skills and final year examination performance *M J Liddell & S Koritsas*
The metric of medical education
199 Techniques for measuring clinical competence: objective structured clinical examinations
D Newble
Arts and humanities
204 A community-based approach to the medical humanities *M Donohoe & S Danielson*
218 An iceberg in Springfield: using the humanities to explore and challenge the attitudes of general practice (GP) educators towards the management of GP registrars with substance abuse problems
E A Moulton & S S McMain
Letters to the editor
223 Implementation of problem-based learning in Asia: similarities between Far East and Middle East medical schools *A Yazigi, E Nemr & S A Jaoude*
224 Does medical school affect the attitudes of medical students towards homeless people? The question remains unanswered *D Buchanan*
224 Even re-sit students find the OSCE fair!
J Syme-Grant & P Johnstone
226 **ASME announcement**
227 **WFME announcement**

Volume 38 Issue 3 March 2004

229 In this issue
Editorial
230 Influences before and during medical school on career choices *J Morrison*
Commentaries
232 The detrimental ethical shift towards cynicism: can medical educators help prevent it?
J G S Goldie
234 Quality improvement in medical students' education: the AAMC medical school graduation questionnaire *J H Lockwood, R K Sabharwal, D Danoff & M E Whitcomb*
236 From the wards to awards *L Pritchard*
Career choice
239 Medical career choice and practice location: early factors predicting course completion, career choice and practice location *A M Ward, M Kamien & D G Lopez*
249 Variation by medical school in career choices of UK graduates of 1999 and 2000 *M J Goldacre, G Turner & T W Lambert*
259 Do students from rural backgrounds engage in rural family practice more than their urban-raised peers? *W Woloschuk & M Tarrant*
262 Attachment theory in health care: the influence of relationship style on medical students' specialty choice *P S Ciechanowski, J E Russo, W J Katon & E A Walker*
Ethics
271 Medicine and money: the ethical transformation of medical practice *S Keshavjee*
276 Academic misconduct among medical students in a post-communist country *M Hrabak, A Vujaklija, I Vodopivec, D Hren, M Marušić & A Marušić*
Teaching methods
286 Student perceptions of effective small group teaching *Y Steinert*
294 Medical students taking the role of the mother in paediatric interview evaluation *M O'Keefe, M Sawyer & D Roberton*
Original papers
302 Teaching and learning pathology: a critical review of the English literature *R Marshall, N Cartwright & K Mattick*
314 An admissions OSCE: the multiple mini-interview *K W Eva, J Rosenfeld, H I Reiter & G R Norman*
The metric of medical education
327 Validity threats: overcoming interference with proposed interpretations of assessment data
S M Downing & T M Haladyna
334 **ASME announcement**

Volume 38 Issue 4 April 2004

335 In this issue
Commentaries
336 Can training and service survive the European Working Time Directive? *E Paice & W Reid*
338 Can item response theory help us improve our tests? *R F Burton*
Learning in psychiatry
340 Trainee to trained: helping senior psychiatric trainees make the transition to consultant
J MacDonald & J Cole

349 Experiences from psychiatric rotation for pre-registration house officers: contributions to subjective learning *T Sørensen Høifødt, H Sexton & R Olstad*

Approaches to learning

358 Clinical skills in junior medical officers: a comparison of self-reported confidence and observed competence *L Barnsley, P M Lyon, S J Ralston, E J Hibbert, I Cunningham, F C Gordon & M J Field*

368 Assessing student reflection in medical practice *A D Boenink, A K Oderwald, P de Jonge, W van Tilburg & J A Smal*

378 The interactive examination: assessing students' self-assessment ability *N Mattheos, A Nattestad, E Falk-Nilsson & R Attström*

390 Changes in student approaches to learning with the introduction of computer-supported problem-based learning *H I Strømsø, P Grøttum & K Hofgaard Lycke*

399 Good wine may need to mature: a critique of accelerated higher specialist training *M Talbot*

Curriculum

409 Social and behavioural science education in UK medical schools: current practice and future directions *A Russell, E van Teijlingen, H Lambert & R Stacy*

418 Teaching anatomy without cadavers *J C McLachlan, J Bligh, P Bradley & J Searle*

Other original papers

425 An empirical study of the predictive validity of number grades in medical school using three decades of longitudinal data *J S Gonnella, J B Erdmann & M Hojat*

435 The impact of evidence-based education on a perinatal capacity-building initiative in Macedonia *H E Jeffery, M Kocova, F Tozija, D Gjorgiev, M Pop-Lazarova, K Foster, J Polverino & D A Hill*

448 Contextual tensions of the clinical environment and their influence on teaching and learning *K G Hoffman & J F Donaldson*

letters to the editor

455 A junior doctor's dismay at a full shift system *A Chandra*

456 Simulated patient versus clinician marking of doctors' performance: which is more accurate? *J Thistlethwaite*

457 **ASME announcement**

Volume 38 Issue 5 May 2004

459 In this issue

Editorial

460 More medical students, more stress in the medical education system *J Bligh*

Commentary

463 Straining to describe and tackle stress in medical students *J Adams*

Undergraduate Medical Education

465 Well-being in an academic environment *T Stecker*

479 Does medical school cause health anxiety and worry in medical students? *G Singh, M Hankins & J A Weinman*

482 First year medical student stress and coping in a problem-based learning medical curriculum *K J Moffat, A McConnachie, S Ross & J M Morrison*

492 Factors affecting the probability of first year medical student dropout in the UK: a logistic analysis for the intake cohorts of 1980–92 *W Arulampalam, R Naylor & J Smith*

504 First year medical students' perceptions of stress and support: a comparison between reformed and traditional track curricula *C Kiessling, B Schubert, D Scheffner & W Burger*

510 Defining generic objectives for community-based education in undergraduate medical programmes *T N Kristina, G D Majoor & C P M van der Vleuten*

522 Attitude change during medical school: a cohort study *W Woloschuk, P H Harasym & W Temple*

535 Approaches to learning and studying in medical students: validation of a revised inventory and its relation to student characteristics and performance *K Mattick, I Dennis & J Bligh*

Letter to the Editor

544 The molecular metamorphosis of embryology: implications for medical education *I Tavares*

Really Good Stuff: New ideas in medical education

545 A peer-reviewed collection of reports on innovative approaches to medical education edited by *M Brownell Anderson*

577 **Erratum**

578 **ASME announcement**

Volume 38 Issue 6 June 2004

579 In this issue

Editorial

580 Clarity of outcomes in medical education: do we know if it really makes a difference? *D Prideaux*

Commentaries

582 Applying global standards across national boundaries: lessons learned from an Asia-Pacific example *R Hays & W Baravilala*

584 Changing course *L S Pritchard*

Outcomes-based teaching

587 Monkey see, monkey do: a critique of the competency model in graduate medical education *M Talbot*

593 The problem with outcomes-based curricula in medical education: insights from educational theory *C E Rees*

599 Learning management systems: technology to measure the medical knowledge competency of the ACGME *C E Johnson, L C Hurtubise, J Castrop, G French, J Groner, M Ladinsky, D McLaughlin, L Plachta & J D Mahan*

Clinical reasoning

609 Inter-rater agreement in judging errors in diagnostic reasoning *M Hasnain, H Onishi & A S Elstein*

617 Case representation by medical experts, intermediates and novices for laboratory data presented with or without a clinical context *P P J L Verkoeijen, R M J P Rikers, H G Schmidt, M W J van de Wiel & J P Kooman*

628 Evaluation of a handheld clinical decision support tool for evidence-based learning and practice in medical undergraduates *J M Johnston, G M Leung, K Y K Tin, L-M Ho, W Lam & R Fielding*

638 Supporting the problem-based learning process in the clinical years: evaluation of an online Clinical Reasoning Guide *G Ryan, T Dolling & S Barnet*

Other original papers

646 Evaluation of interns by senior residents and faculty: is there any difference? *E N Ringdahl, J E Delzell & R L Kruse*

652 Prospective randomised comparison of traditional, personal bedside and problem-oriented practical dermatology courses *F R Ochsendorf, W-H Boehncke, A Böer & R Kaufmann*

659 Clinical students' initial reports of the educational climate in a single medical school *M A Seabrook*

Short report

670 Evaluation of self-directed clinical education: validation of an instrument *T Dornan, H Boshuizen, L Condingley, S Hider, J Hadfield & A Scherpbier*

679 **Forthcoming papers**

680 **WFME announcement**

681 **ASME announcement**

Volume 38 Issue 7 July 2004

683 In this issue

Editorials

684 'Not if I was very ill' *D F Wood*

685 Learning from disappointments *J Morrison*

Commentary

688 Understanding global health issues: are international medical electives the answer? *R Edwards, J Piachaud, M Rowson & J Miranda*

Working and learning together

691 Tensions influencing operating room team function: does institutional context make a difference? *L Lingard, S Garwood & D Poenaru*

700 Validation of a checklist to assess ward round performance in internal medicine *K Nørgaard, C Ringsted & D Dolmans*

708 Pre-registration house officer training: a role for nurses in the new Foundation Programme? *J Vallis, A Hesketh & S Macpherson*

717 Learning for real life: patient-focused interprofessional workshops offer added value *S Kilminster, C Hale, M Lascelles, P Morris, T Roberts, P Stark, J Sowter & J Thistlethwaite*

727 Interprofessional training in the context of clinical practice: goals and students' perceptions on clinical education wards *S Ponzer, U Hylin, A Kusoffsky, M Lauffs, K Lonka, A-C Mattiasson & G Nordström*

737 Student attitudes towards anatomy teaching and learning in a multiprofessional context *B S Mitchell, P McCrorie & P Sedgwick*

749 'I found myself to be a down to earth Dutch girl': a qualitative study into learning outcomes from international traineeships *S Niemantsverdriet, G D Majoor, C P M van der Vleuten & A J J A Scherpbier*

Postgraduate education

758 Factors predictive of successful learning in postgraduate medical education *P B A Smits, J H A M Verbeek, M C E Nauta, T J Ten Cate, J C M Metz & F J H van Dijk*

767 Educational impact of in-training assessment (ITA) in postgraduate medical education: a qualitative study of an ITA programme in actual practice *C Ringsted, A H Henriksen, A M Skaarup & C P M Van der Vleuten*

Graduate entry

778 Graduate entry to medical school? Testing some assumptions *I E Rolfe, C Ringland & S-A Pearson*

Short report

787 A randomised trial of an online lecture with and without audio *A Spickard III, J Smithers, D Cordray, J Gigante & J L Wofford*

Conference report

791 The AAMC:GEA Research in Medical Education (RIME) Conference 2003 *G Regehr*

793 **Recruitment**

794 **WFME Announcement**

Volume 38 Issue 8 August 2004

795 In this issue

Editorials

796 Academic medicine in crisis *J M Morrison & D F Wood*

797 Learning by scar formation *L Schuwirth*

Commentaries

800 The relationship between learning style and learning environment *D H J M Dolmans & I H A P Wolfhagen*

801 Reflecting on learning portfolios *R B Hays*

803 A wider perspective on assessment *M Eraut*

Assessment

805 Changing education, changing assessment, changing research? *L W T Schuwirth & C P M van der Vleuten*

813 Assessment of medical communication skills by computer: assessment method and student experiences *R L Hulsman, E D Mollema, A M Hoos, J C J M de Haes & J D Donnison-Speijer*

825 Factor analysis can be a useful standard setting tool in a high stakes OSCE assessment *A M S Chesser, M R Laing, Z H Miedzybrodzka, J Brittenden & S D Heys*

832 Evaluating the impact of moving from discipline-based to integrated assessment *J N Hudson & A L Tonkin*

Professional development

844 Training the trainers: do teaching courses develop teaching skills? *J Godfrey, R Dennick & C Welsh*

848 Factors that influence doctors' participation in clinical research *T Lloyd, B R Phillips & R C Aber*

852 Improving the quality of outpatient clinic letters using the Sheffield Assessment Instrument for Letters (SAIL) *A T Fox, R D Palmer, J G M Crossley, D Sekaran, E S Trewavas & H A Davies*

Teaching methods

859 The effectiveness of problem-based learning compared to traditional teaching in undergraduate psychiatry *M McParland, L M Noble & G Livingston*

868 Teaching and evaluating first and second year medical students' practice of evidence-based medicine *R Holloway, K Nesbit, D Bordley & K Noyes*

879 The impact of multifaceted educational structuring on learning effectiveness in a surgical clerkship *H H van der Hem-Stokroos, H E M Daelmans, C P M van der Vleuten, H J Th M Haarman & A J J A Scherpbier*

Simulation

887 Computer-aided learning in the real world of medical education: does the quality of interaction with the computer affect student learning? *J N Hudson*

896 Evaluation of a surgical simulator for learning clinical anatomy *S Hariri, C Rawn, S Srivastava, P Youngblood & A Ladd*

Teaching professionalism

903 Setting and maintaining professional role boundaries: an educational strategy *G E White*

Letters to the editor

911 Teaching anatomy without cadavers *G Stansby*

911 Teaching anatomy as a multimedia experience *B S Mitchell & C R Stephens*

912 Authors' reply *J C McLachlan, J Bligh, P Bradley & J Searle*

913 First aid and cardiopulmonary resuscitation training for medical students *H U Ahmed, C Kellett, M Ashworth & S Nazir*

Announcement

914 Call for Papers – Really Good Stuff May 2005

Volume 38 Issue 9 September 2004

915 In this issue

Editorials

916 Decline in empathy in medical education: how can we stop the rot? *J Spencer*

918 Treading tactfully on tutor turf: does PBL tutor content expertise make a difference? *M A Albanese*

Commentaries

921 Responses to the pilot systematic review of problem-based learning *Campbell Collaboration Review Group on the Effectiveness of Problem-based Learning*

923 Problem-based learning: the confusion continues *B Miflin*

925 Problem-based learning tutor expertise: the need for different questions *A Gilkison*

Student attitudes

927 Striking a balance: training medical students to provide empathic care *P J Rosenfield & L Jones*

934 An empirical study of decline in empathy in medical school *M Hojat, S Mangione, T J Nasca, S Rattner, J B Erdmann, J S Gonnella & M Magee*

942 The impact of a modern medical curriculum on students' proposed behaviour on meeting ethical dilemmas *J Goldie, L Schwartz, A McConnachie & J Morrison*

950 What kind of motivation drives medical students' learning quests? *D T Sobral*

Standardised patients

958 Assessment of patient management skills and clinical skills of practising doctors using computer-based case simulations and standardised patients *R Hawkins, M MacKrell Gaglione,*

T LaDuca, C Leung, L Sample, G Gliva-McConvey, W Liston, A De Champlain & A Ciccone

969 The effectiveness of unannounced standardised patients in the clinical setting as a teaching intervention *D Elman, R Hooks, D Tabak, G Regehr & R Freeman*

Assessment

974 Different written assessment methods: what can be said about their strengths and weaknesses? *L W T Schuwirth & C P M van der Vleuten*

Other Original articles

980 The first batch of graduates of a new medical curriculum in Asia: how their teachers see them *T P Lam, U S Khoo, Y S Chan, Y H Cheng & K F Lam*

987 Identifying barriers to the adoption of evidence-based medicine practice in clinical clerks: a longitudinal focus group study *W W T Lam, R Fielding, J M Johnston, K Y K Tin & G M Leung*

Short reports

998 The effect of an extended hospital induction on perceived confidence and assessed clinical skills of newly qualified pre-registration house officers *D E Evans, D F Wood & C M Roberts*

1002 Comparison of academic, application form and social factors in predicting early performance on the medical course *A B Lumb & A Vail*

The metric of medical education

1006 Reliability: on the reproducibility of assessment data *S M Downing*

Letters to the editor

1013 Defining stress *R F Burton*

1014 Pioneer students *M McLean & J W Hinton*

1014 A curriculum for patient safety *J Fulton*

1015 Practical skills are the most popular elective choice *J E Vieira, P L Bellodi, E Marcondes & M de Arruda Martins*

1016 Student opinion on psychosomatic education in Germany *M Nickel, C Nickel, F Mitterlehner, W Rother, A Summ, P Leiberich, K Tritt, T Loew & P Joraschky*

1017 **Forthcoming papers**

Announcement

1018 Call for papers - Really Good Stuff May 2005

Volume 38 Issue 10 October 2004

1019 In this issue

Editorials

1020 Psychological size and distance: a step towards better defining the human elements critical to learning *M Albanese*

1021 New approaches to learning clinical skills *J Silverman & D F Wood*

Commentaries

1024 Of course you don't mind being seen by the students *S Leinster*

1025 Self-reflection on the quality of decisions in health care *G Regehr*

Clinical reasoning

1028 The effect of outcome information on doctors' evaluations of their own diagnostic decisions *S Sacchi & P Cherubini*

1035 The role of encapsulated knowledge in clinical case representations of medical students and family doctors *R M J P Rikers, S M M Loyens & H G Schmidt*

The learning environment

1044 The effects of deliberate practice in undergraduate medical education *V Moulaert, M G M Verwijnen, R Rikers & A J J A Scherpbier*

1053 Psychological size and distance: emphasising the interpersonal relationship as a pathway to optimal teaching and learning conditions *L M Vaughn & R C Baker*

1061 Interpreting course evaluation results: insights from thinkaloud interviews with medical students *S Billings-Gagliardi, S V Barrett & K M Mazor*

Problem-based learning

1071 The patient as text: a challenge for problem-based learning *N P Kenny & B L Beagan*

Simulation

1080 Comparison of computer-assisted instruction (CAI) versus traditional textbook methods for training in abdominal examination (Japanese experience) *A K Qayumi, Y Kurihara, M Imai, G Pachev, H Seo, Y Hoshino, R Cheifetz, K Matsuura, M Momoi, M Saleem, H Lara-Guerra, Y Miki & Y Kariya*

1089 Performance-related stress symptoms in simulated patients *L Bokken, J van Dalen & J-J Rethans*

1095 Simulation and clinical practice: strengthening the relationship *R L Kneebone, W Scott, A Darzi & M Horrocks*

Assessment

1103 Assessing undergraduate palliative care education: validity and reliability of two scales examining perceived efficacy and outcome expectancies in palliative care *S Mason & J Ellershaw*

1111 Comprehensive undergraduate medical assessments improve prediction of clinical performance *T J Wilkinson & C M Frampton*

1117 Portfolios for assessment of paediatric specialist registrars *C Melville, M Rees, D Brookfield & J Anderson*

Announcement

1126 Call for papers – Really Good Stuff May 2005

Volume 38 Issue 11 November 2004

1127 In this issue

Editorial

1128 Academic medicine and intercalated degrees *J Morrison*

Commentaries

1130 Graduate entry medicine: what it is and what it isn't *J Searle*

1132 Graduate entry to medical school *A J Sefton*

1134 Accelerated graduate entry programmes: a student's perspective *M-L Daly*

1136 Academic medicine and intercalated degrees – the myth of student choice *B Rushforth*

1138 Revitalising academic medicine: the views of an interested bystander *J O Woolliscroft*

Graduate entry

1141 Are differences between graduates and undergraduates in a medical course due to age or prior degree? *T J Wilkinson, J E Wells & J A Bushnell*

1147 Are graduate entry programmes the answer to recruiting and selecting tomorrow's doctors? *D Powis, J Hamilton & J Gordon*

1154 Anxiety in medical students: is preparation for full-time clinical attachments more dependent upon differences in maturity or on educational programmes for undergraduate and graduate entry students? *K Hayes, A Feather, A Hall, P Sedgwick, G Wannan, A Wessier-Smith, T Green & P McCrorie*

1164 Prior academic background and student performance in assessment in a graduate entry programme *P L Craig, J J Gordon, R M Clark & V Langendyk*

1169 Models for the development of graduate entry medical courses: two case studies *D Prideaux & P McCrorie*

The metric of medical education

1176 The long case *V Wass & C van der Vleuten*

Really Good Stuff: New ideas in medical education

1181 A peer-reviewed collection of reports on innovative approaches to medical education edited by *M Brownell Anderson*

Letters to the editor

1203 Outcomes-based education versus coping with complexity: should we be educating for capability? *C Rees & L Richards*

1204 Poor English skills as a barrier for Japanese health care professionals in learning and practising evidence-based medicine *K Matsui, N Ban, S Fukuhara, T Shimbo, H Koyama, S Nakamura, N Nago, T Fukuoka & T Fukui*

1205 Justifications for learning outcomes: more appropriate educational theories *R Dennick*

1206 **ASME announcement**

Volume 38 Issue 12 December 2004

1207 In this issue

Editorials

1208 Merging views on assessment *L Schuwirth & C van der Vleuten*

1210 The exceptional potential of learning in general practice *J Morrison & J Spencer*

Commentaries

1212 Full-curriculum interventions and small-scale studies of transfer: implications for psychology-type theory *J A Colliver*

1214 The Network: Towards Unity for Health – 25th anniversary *A Kaufman, J van Dalen, G Majoor & F Mora Carrasco*

1217 Likert scales: how to (ab)use them *S Jamieson*

Primary care

1219 What impact will an increased number of teaching general practices have on patients, doctors and medical students? *J Mathers, J Parry, S Lewis & S Greenfield*

1229 Fielding incognito standardised patients as 'known' patients in a controlled trial in general practice *B H J Maiburg, J-J E Rethans, I M van Erk, L M H Mathus-Vliegen & J W van Ree*

1236 Learning in a clinical education programme in primary care: the Maastricht Adoption Programme *M T Mainhard, M M van den Hurk, M W J van de Wiel, H F J M Crebolder & A J J A Scherpbier*

1244 Setting a standard for performance assessment of doctor–patient communication in general practice *S O Hobma, P M Ram, A M M Muijtjens, R P T M Grol & C P M van der Vleuten*

Assessment

1253 Competence in the musculoskeletal system: assessing the progression of knowledge through an undergraduate medical course *S Basu, C Roberts, D I Newble & M Snaith*

1261 The effect of in-training assessment on clinical confidence in postgraduate education *C Ringsted, J Pallisgaard, D Østergaard & A Scherpbier*

1270 Feasibility and reliability of an in-training assessment programme in an undergraduate clerkship *H E M Daelmans, H H van der Hem-Stokroos, R J I Hoogenboom, A J J A Scherpbier, C D A Stehouwer & C P M van der Vleuten*

Original articles

1278 A model of teaching and learning in the operating theatre *P Lyon*

1288 Towards evidence-based practice in medical training: making evaluations more meaningful *U Drescher, F Warren & K Norton*

1295 Growth of knowledge in psychiatry and behavioural sciences in a problem-based learning

curriculum *R van Diest, J van Dalen, M Bak, K Schruers, C van der Vleuten, A Muijtjens & A Scherpbier*
1302 The structure of reflective practice in medicine *S Mamede & H G Schmidt*
Letter to the editor
1309 Curriculum for complex humanitarian emergencies is urgently needed *M Morikawa*
1311 **Forthcoming papers**
1312 **List of referees for 2004**
1315 **ASME announcement**
1316 **WFME announcement**
1317 **Author index**
1325 **Subject index**
